

HIMEBAYASHI

OKURIOKURA Premium

Ingredients : Chestnuts (from Ehime prefecture) / Rice Koji (black koji)

Distillation: Vacuum distillation

ABV : 25%

Best served with: ice or water or hot water

Ehime Prefecture is Japan's leading producer of chestnuts. Okuriokura uses quality chestnuts from the area including Shirokawa.

When we started making the premium range, our challenge was to bring out the flavor of chestnuts as much as possible. We used black koji for creating rich flavor and used special type of Sake yeast from Ehime prefecture called 'EK-1' to create great fragrance.

It goes well with any meals but can also be enjoyed after dinner with nuts and cheese to feel the unique flavor, or sweets like pound cake.
